## GCSE Science in Action

Join us for the ultimate science enrichment day for KS4 in autumn 2017! Five interactive and highly engaging sessions will inspire and challenge your students. There will be demonstrations and audience participation, and students will discover the wonder of science in our specially designed programme, delivered by the leading lights in the field. A session on examination success will equip students with the tools to succeed, and each student will receive our incredibly useful revision guide to take home. This is Science in Action!

- Bring back the king: the science of de-extinction
- Kitchen chemistry
- Exploring the unknown universe
- Deep ocean dive
- Dangerous equations

Emmanuel Centre, London,  
London,  
SW1P 3DW

**Venue: £19 +VAT \***

Plus one COMPLIMENTARY staff ticket per 10 students.

\*VAT may be reclaimable. Please check with your finance department

GCSE Science  
in ACTION

Bring back the king: the science of de-extinction /  
Helen Pilcher - Author and Science Communicator

Join Helen as she explains how advances in genetics have made de-extinction a reality; and how the re-appearance of woolly mammoths, baby-burping frogs and other animals will soon put an end to the dogma that extinction is forever.

Dr Helen Pilcher is a tea-drinking, biscuit-nibbling science and comedy writer. Her books include *Bring Back the King: the Science of De-extinction* and *Life Changing: How Humans are Altering Life on Earth*.

Deep ocean dive /  
Greg Foot - Science Presenter and Communicator

Join YouTuber & BBC Science Presenter Greg Foot for the story of his scientific adventure diving to 1000ft in the deep ocean in a high-tech submersible.

Greg is a Science Journalist who has been writing, hosting & producing science content for 15+ years across TV, Radio, YouTube, Podcast, & Stage. He currently writes & hosts his popular BBC 4 show and podcast *Sliced Bread* and is a regular on BBC *Morning live*.

Kitchen chemistry /  
Stephen Ashworth - University of East Anglia

Join Stephen for an interactive and demo-packed session using materials available in a supermarket, pharmacy or hardware store to illustrate the wonders of chemistry.

Stephen works at the University of East Anglia, writes a regular column for "The Mole" and presents regularly at Scifest Africa.

Dangerous equations /  
Marty Jopson - Science presenter

Join Marty Jopson as he places himself in grave personal danger for your entertainment. Will his steely nerve and a set of equations be enough to keep him from harm?

Marty has a PhD in plant biology, is a science TV presenter, live show performer, writer, strange prop builder and all round Science Bloke.

Exploring the unknown universe /  
Carole Mundell - University of Bath

Carole is Professor of Extragalactic Astronomy and Head of Astrophysics at the University of Bath.
